

Day 1 (Activity 3)

How to Login on Oculus?

1. Go to url: auth.oculus.com

On landing page you have option to Log In using your Facebook/Instagram account

| 🔿 Meta |
|--|
| |
| Continue with Facebook |
| O Continue with Instagram |
| Set up account with email address |
| Log in with email address |

3. Using same credentials you used to Sign up can be used to Log In to your Oculus Headset

Setting up Play Ares for Oculus?

1. Most of activities pertaining to AR/VR will be done by respective candidates being in their seated position assigned to them, so always choose **Stationary Boundary** instead of **Room Scale Boundary**.

Room Scale Boundary is preferred when there is scope to move around in your/environment.

This **Stationary Boundary** will help you stay within your cleared play area. It will appear in your VR experience when you're near or touching its edge.

At any point you can change play area preferences from Oculus **Settings** from Guardian option

Setting up Oculus Casting?

Note: PC/Laptop and Oculus should be connected over same Wi-Fi Network

1. On you PC/Laptop go to **tinyurl.com/w-help** and scroll down to **Important** Links and click on Cast Oculus or go to Oculus com/casting

2. You will land on **Oculus Casting Login** Page. Login using the same credentials you used on Oculus headset.

3. Now you can see the PC/Laptop is ready to cast your Oculus.

4. Now turn-on Oculus and you will land on **Universal Menu** where you can find **Share** button.

5. Now click on **Cast** button
